

# SpO<sub>2</sub>-Probes

High quality probes for  
Medlab Pulse Oximeters

Medlab SpO<sub>2</sub> probes can be used exclusively with Medlab pulse oximeters and Medlab SpO<sub>2</sub>-Modules. They are the result of more than 15 years of experience in developing SpO<sub>2</sub> sensors.

By using only the highest quality cabling, a Kevlar re-enforcement and a specially designed cable strain relief, we are able to offer all our reusable probes with a two year warranty.

Please see the table on the right for more information. We deliver probes for different applications and patient groups.

Sensor extensions are optionally available.

By using the Medlab probes, your budget for pulse oximetry is easy to plan: You can be sure that for 24 months, there will be no additional costs because of defective probes\*.

Extension cable DSUB-DSUB  
For handheld devices, 120 cm  
Order No. 00310

Extension cable Lemo-DSUB  
For desktop devices, 150 cm  
Order No. 00309
